REPUBLIC OF TRINIDAD AND TOBAGO**

on the

**FINANCIAL STATEMENTS**

of the

**HERITAGE AND STABILISATION FUND OF THE  
REPUBLIC OF TRINIDAD AND TOBAGO**

for the year ended

**30 September 2025**

## **REPORT OF THE AUDITOR GENERAL OF THE REPUBLIC OF TRINIDAD AND TOBAGO ON THE FINANCIAL STATEMENTS OF THE HERITAGE AND STABILISATION FUND OF THE REPUBLIC OF TRINIDAD AND TOBAGO FOR THE YEAR ENDED 30 SEPTEMBER 2025**

---

### **OPINION**

The Financial Statements of the Heritage and Stabilisation Fund (the Fund) for the year ended 30 September 2025 have been audited. The Statements as set out on pages 1 to 34 comprise a Statement of Financial Position as at 30 September 2025, a Statement of Comprehensive Income, a Statement of Changes in Equity and a Statement of Cash Flows for the year ended 30 September 2025 and Notes to the Financial Statements numbered 1 to 15, including a summary of material accounting policies.

2. In my opinion, the accompanying Financial Statements present fairly, in all material respects, the financial position of the Fund as at 30 September 2025 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

### **BASIS FOR OPINION**

3. The audit was conducted in accordance with the principles and concepts of International Standards of Supreme Audit Institutions (ISSAIs). The Auditor General's responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of this report. The Auditor General is independent of the Fund in accordance with the ethical requirements that are relevant to the audit of the Financial Statements and other ethical responsibilities have been fulfilled in accordance with these requirements. It is my view that the audit evidence obtained is sufficient and appropriate to provide a basis for the above audit opinion.

### **RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS**

4. Management of the Fund is responsible for the preparation and fair presentation of these Financial Statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

5. In preparing the Financial Statements, management is responsible for assessing the ability of the Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

6. Those charged with governance are responsible for overseeing the financial reporting process of the Fund.

## **AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS**

7. The Auditor General's responsibility is to express an opinion on these Financial Statements based on the audit and to report thereon in accordance with section 116 of the Constitution of the Republic of Trinidad and Tobago and Section 16(1) of the Heritage and Stabilisation Fund Act, Chapter 70:09 (the Act).

8. The Auditor General's objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes her opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the principles and concepts of ISSAIs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

9. As part of an audit in accordance with the principles and concepts of ISSAIs, the Auditor General exercises professional judgment and maintains professional skepticism throughout the audit. The Auditor General also:

- Identifies and assesses the risks of material misstatement of the Financial Statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence that is sufficient and appropriate to provide a basis for an opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Fund.
- Evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Concludes on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Fund to continue as a going concern. If the Auditor General concludes that a material uncertainty exists, the Auditor General is required to draw attention in her audit report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify her opinion. The Auditor General's conclusions are based on the audit evidence obtained up to the date of her audit report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluates the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. The Auditor General communicates with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that were identified during the audit.

## REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

### MEETINGS AND QUORUM

11.1 Section 5(1) of the Act states:

*“the Board shall meet at such times and places as may be necessary or expedient for the efficient performance of its functions save that the Board shall meet at least once in every two successive months.”*

11.2 The absence of a constituted Board of Governors during the period 17<sup>th</sup> May, 2025 to 19<sup>th</sup> August, 2025 led to non-compliance with the statutory meetings obligation.

### DEPOSITS TO THE FUND

12. The Auditor General’s Report on the Financial Statements of the Fund for the financial year ended 30 September 2008, at paragraph 6 highlighted:

‘(i) Section 13 (1) of the Act states:

*“Where petroleum revenues collected in each quarter of any financial year*

*(a) exceed the estimated petroleum revenues for that quarter of the financial year by more than ten per cent, the currency of the United States of America equivalent of the excess revenue shall be withdrawn from the Consolidated Fund and deposited to the Fund in accordance with section 14(1); or*

*(b) exceed the estimated petroleum revenues for that quarter of a financial year but do not exceed such estimated revenues by at least ten per cent, the Minister may direct that the currency of the United States of America equivalent of all or part of the excess revenue shall be withdrawn from the Consolidated Fund and deposited to the Fund in accordance with section 14(1).”*

(ii) Section 14(1) of the Act states:

*“A minimum of sixty per cent of the aggregate of the excess revenues shall be deposited to the Fund during a financial year.”*

(iii) The above quoted sections of the Act are open to interpretation. It is recommended that suitable amendments be made to the Act to provide for greater clarity with regard to deposits to the Fund.’

## **SUBMISSION OF REPORT**

13. This Report is being submitted to the Minister of Finance in accordance with the requirements of section 116 of the Constitution of the Republic of Trinidad and Tobago and section 16(3) of the Heritage and Stabilisation Fund Act and to the Central Bank of Trinidad and Tobago in accordance with section 10 of the Heritage and Stabilisation Fund Act.

# **Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago**

## **Notes to the Financial Statements for the year ended 30 September 2025 (Expressed in United States Dollars)**

---

### **1. Corporate Information**

The Heritage and Stabilisation Fund Act, 2007 of the Republic of Trinidad and Tobago, (the Act), provides for the establishment and management of the Heritage and Stabilisation Fund (the Fund). This Fund was established on 15 March 2007. It is denominated in the currency of the United States of America. The Fund is domiciled at Eric Williams Plaza, Independence Square, Port of Spain.

The President, upon the advice of the Minister of Finance, appoints the Board of Governors of the Fund. This Board comprises five members, who are appointed for a term of three years and are eligible for reappointment. Members are selected from among persons of proven competence in matters of finance, investment, economics, business management or law, including an officer of: -

- a) the Central Bank; and
- b) the Ministry of Finance.

The Board delegates the responsibility for the management of the Fund to the Central Bank of Trinidad and Tobago (the Bank).

The purpose of the Fund is to save and invest surplus petroleum revenues derived from production business in order to: -

- a) cushion the impact on or sustain public expenditure capacity during periods of revenue downturn whether caused by a fall in prices of crude oil or natural gas;
- b) generate an alternate stream of income so as to support public expenditure capacity as a result of revenue downturn caused by the depletion of non-renewable petroleum resources; and
- c) provide a heritage for future generations of citizens of Trinidad and Tobago, from savings and investment income derived from the excess petroleum revenues.

The Act was amended on March 27, 2020, by Act No. 9 of 2020, to broaden the scope to allow withdrawals if certain emergency situations arose. Consequently, section 15A has been inserted into the amended Act. Further details of this amendment are included in Note 2 (p).

Upon the commencement of this Act, the monies held in the Interim Revenue Stabilisation Fund established under the Exchequer and Audit Act were transferred to the Fund, whereupon the Interim Revenue Stabilisation Fund ceased to exist.

The resources of the Fund consist of: -

- a) moneys transferred from the Interim Revenue Stabilisation Fund;
- b) petroleum revenues deposited into the Fund in accordance with Section 13; and
- c) assets acquired and earned from investments.

Notes to the Financial Statements  
for the year ended 30 September 2025 (continued)  
(Expressed in United States Dollars)

---

**2. Material Accounting Policies**

**a) *Basis of preparation***

The Financial Statements of the Fund have been prepared in accordance with International Financial Reporting Standards as adopted by the Institute of Chartered Accountants of Trinidad and Tobago. The Financial Statements have been prepared under the Historical Cost Convention as modified by financial assets and liabilities at fair value through profit or loss.

**b) *Changes in accounting policies and disclosures***

**i. New standards, amendments and interpretations that are effective and adopted by the Fund:**

- *Amendments to IAS 1 – Presentation of Financial Statements- Classification of Liabilities as Current or Non-Current (effective 1 January 2024).*

The amendments clarify the requirements for classifying liabilities as current or non-current, it specifies that the conditions which exist at the end of the reporting period are those which will be used to determine if a right to defer settlement of a liability exists. Management expectations about events after the statement of financial position date, for example on whether a covenant will be breached, or whether early settlement will take place, are not relevant. Additionally, the amendments clarify the situations that are considered settlement of a liability. These amendments had no impact on the Fund's financial statements.

- *Amendments to IFRS 16 – Leases – Lease liability in a sale and leaseback (effective 1 January 2024).*

The amendment clarifies how a seller-lessee subsequently measures sale and leaseback transactions that satisfy the requirements in IFRS 15- Revenue from Contracts with Customers to be accounted for as a sale. The impact of this standard is not applicable to the Fund.

**ii. *New standards and interpretations that are not yet effective and have not been early adopted by the Fund***

There are new standards, amendments and interpretations to existing standards that are not yet effective for accounting periods beginning on or after January 1 2024 and have not been early adopted by the Fund. The Fund intends to adopt these standards and interpretations, if applicable, when they become effective.

These standards and amendments include:

**Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago**

**Notes to the Financial Statements  
for the year ended 30 September 2025 (continued)  
(Expressed in United States Dollars)**

---

**2. Material Accounting Policies (continued)**

***b. Changes in accounting policies and disclosures (continued)***

***ii. New standards and interpretations that are not yet effective and have not been early adopted by the Fund (continued)***

- *IFRS 18 – Presentation and Disclosures in Financial Statements (effective January 1, 2027).*

IFRS 18 was issued in April 2024 and replaces IAS 1- Presentation of Financial Statements. The objective of this standard is to set out requirements for the presentation and disclosure of information in general purpose financial statements to help ensure they provide relevant information that faithfully represents an entity's assets, liabilities, equity, income and expenses. This standard is currently being assessed by the Fund.

***c) Cash and cash equivalents***

Cash and cash equivalents are defined as cash on hand and at bank, bank overdraft, short term investment in money market funds and deposits maturing within three months from the date of acquisition.

Cash balances held are swept daily for investment purposes based on a projected cash flow. Consequently, there may be instances where the amounts retained on accounts following the sweep, may not be in line with actual cash flows required to execute business transactions for settlement on these accounts resulting in temporary overdrawn cash balances.

***d) Foreign currency translation***

***i. Functional and presentation currency***

The financial statements are presented in United States Dollars, which is the Fund's functional, and presentation currency.

***ii. Transactions and balances***

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the Statement of Financial Position date. Foreign exchange gains and losses arising from translation are included in the Statement of Comprehensive Income.

**2. Material Accounting Policies (continued)**

*e) Investment Securities*

The classification of financial instruments at initial recognition depends on their contractual terms and the Fund's business model for managing the instruments. All financial instruments are measured initially at their fair value plus transaction costs, except in the case of financial assets and financial liabilities which are recorded at fair value through profit or loss.

The Fund classifies all of its financial assets based on the Fund's business model for managing the assets and the instruments' contractual cash flow characteristics, measured at either:

- Amortised Cost (AC)
- Fair value through profit or loss (FVPL)

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVPL:

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

A financial asset is measured at fair value through other comprehensive income (FVOCI) only if it meets both of the following conditions and is not designated as at FVPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and by the sale of financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

The financial assets that are not measured at amortised cost or FVOCI are classified in the category FVPL, with gains and losses arising from changes in the fair value recognised in profit and loss. Management can also, on initial recognition, irrevocably designate a financial asset as measured at FVPL if doing so eliminates or significantly reduces an inconsistency in measurement or recognition that would otherwise result from the measurement of assets or liabilities, and their gains and losses, on different bases.

# Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago

## Notes to the Financial Statements for the year ended 30 September 2025 (continued) (Expressed in United States Dollars)

---

### 2. Material Accounting Policies (continued)

#### *e) Investment Securities (continued)*

##### *Impairment of financial assets*

The adoption of IFRS 9 has fundamentally changed the Fund's accounting for impairment losses on financial assets by replacing IAS 39's incurred loss approach with the forward-looking expected credit loss (ECL) approach. IFRS 9 requires the Fund to record ECLs on all financial assets measured at amortised cost or FVOCI.

IFRS 9 introduces a three-stage approach to impairment of financial assets which are:

- Stage 1: 12 Months ECL
- Stage 2: Lifetime ECL – not credit impaired
- Stage 3: Lifetime ECL – credit impaired

The ECL allowance is based on credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss.

The 12-month ECL is the portion of lifetime ECL that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. Both lifetime and 12-month expected credit losses are calculated on either an individual basis or a collective basis, depending on the size and nature of the underlying portfolio of financial instruments.

Based on the investment securities held by the Fund and the current business model, there are no financial assets held at amortised cost or FVOCI. The ECL model is therefore, not applicable to the Fund for this reporting period.

##### *Business model assessment*

Business model assessment entails a determination of the way financial assets are managed in order to generate cash flows. There are three business models available under IFRS 9:

- Hold to collect: it is intended to hold the asset to maturity to earn interest, collecting repayments of principal and interest from the counterparty.
- Hold to collect and sell: this model is similar to the hold to collect model, except that the entity elects to sell some or all of the assets before maturity as circumstances change or to hold the assets for liquidity purposes.
- Other: all those models that do not meet the 'hold to collect' or 'hold to collect and sell' qualifying criteria.

Notes to the Financial Statements  
for the year ended 30 September 2025 (continued)  
(Expressed in United States Dollars)

---

**2. Material Accounting Policies (continued)**

***e) Investment Securities (continued)***

*Impairment of financial assets (continued)*

The assessment of business model requires judgement based on facts and circumstances at the date of initial application. The business model is not assessed on an instrument by instrument basis, but at a higher level of aggregated portfolios per instrument type and is based on observable factors.

The Fund determines its business model at the portfolio level as this best reflects the way the Fund manages its financial assets to achieve its business objective. The Fund's business model assessment considers the following qualitative and observable factors:

- Frequency, value and timing of sales in prior periods; the reasons for those sales; and expectations about future sales activity;
- Basis of management decision making: whether or not management focuses primarily on fair value information to make decisions;
- Risk parameters under which portfolio assets are managed to meet the objectives;
- Performance evaluation (including compensation): how the Fund's portfolio managers' performance is evaluated and how it relates to compensation; and
- Relative significance of the various sources of income (for example, interest income relative to fair value gains and losses) as one objective determinant to assess how integral contractual cash flows are vis-à-vis fair value gains or losses.

*Solely Payments of Principal and Interest (SPPI) Test*

The Fund assesses the contractual terms of financial assets to determine whether they meet the SPPI test i.e. contractual cash flows that represent solely payments of principal and interest on the principal amount outstanding that are consistent with basic lending arrangements.

'Principal' for the purpose of this test is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as the consideration for the time value of money and the credit risk associated with the principal amount outstanding during a particular period of time.

If a financial asset is held in either a 'Hold to Collect' or a 'Hold to Collect and Sell' business model, then assessment to determine whether contractual cash flows are solely payments of principal and interest on the principal amount outstanding at initial recognition is required to determine the classification. The SPPI test is performed on an individual instrument basis.

**Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago**

**Notes to the Financial Statements  
for the year ended 30 September 2025 (continued)  
(Expressed in United States Dollars)**

---

**2. Material Accounting Policies (continued)**

***e) Investment Securities (continued)***

***Solely Payments of Principal and Interest (SPPI) Test (continued)***

In assessing whether the contractual cash flows are SPPI, the Fund considers whether the contractual terms of the financial asset contain a term that could change the timing or amount of contractual cash flows arising over the life of the instrument which could affect whether the instrument is considered to meet the SPPI test. If the SPPI test is failed, such financial assets are measured at FVPL.

***f) Collateral***

The Margin used for futures contracts can be in the form of either cash or securities held at a Broker. For all balances held at a Broker where collateralised securities and/or swap cash collateral are used, these are reported as either a receivable or payable.

***g) Premium/Discount***

A premium arises when a bond or treasury bill price is higher than its par value. This occurs when the interest rate on the security is higher than the prevailing rates in the market, thus making the bond or treasury bill worth more than a security paying the prevailing lower rate.

A discount arises when a bond or treasury bill price is lower than its par value. This occurs when the interest rate rises; newly issued securities have higher coupon rates than existing securities issued when market rates were lower.

Thus, coupon rates of securities trading at a discount are generally lower than similar quality, newly issued securities.

The premium/discount is netted off against Investments on the Statement of Financial Position.

***h) Income and Dividends***

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Interest income is accounted for on the accrual basis.

Dividend income is recognised on the accrual basis when the shareholder's right to receive payment is established.

**Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago**

**Notes to the Financial Statements  
for the year ended 30 September 2025 (continued)  
(Expressed in United States Dollars)**

---

**2. Material Accounting Policies (continued)**

***i) Expenses***

Expenses are recognised on the accrual basis, i.e. in the period in which they were incurred.

***j) Taxation***

The Fund is a public account and by Section 17 of the Act the income is exempt from any tax. The Fund currently incurs withholding taxes attributable to investment income from foreign sources. Such income is recognised on a gross basis stated at the expected realisable value, in the Statement of Comprehensive Income. Withholding taxes are shown as a separate item in the Statement of Comprehensive Income.

***k) Receivables***

Receivables are stated at their expected realisable value.

***l) Other payables***

Other payables are stated at their expected realisable amounts.

***m) Comparative information***

When necessary, comparative data has been adjusted to conform with changes in presentation in the current year.

***n) Statement of cash flows***

- **Operating activities** include all activities other than investing and financing activities. The cash inflows include all receipts from the sources of revenue that support the Fund's operating activities. Cash outflows include payments made to suppliers.
- **Investing activities** are those activities relating to the acquisition and disposal of current and non-current securities and any other non-current assets. Investments include securities not falling within the definition of cash.
- **Financing activities** are those activities relating to changes in equity of the Fund and those activities relating to the cost of servicing the Fund's equity capital.
- **Cash** means cash balances on hand, held in bank accounts, demand deposits and other highly liquid investments in which the Fund invests as part of its day-to-day cash management.

**Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago**

**Notes to the Financial Statements  
for the year ended 30 September 2025 (continued)  
(Expressed in United States Dollars)**

---

**2. Material Accounting Policies (continued)**

***o) Capital contributions***

In accordance with Section 14 of the Act:

- i.* a minimum of sixty per cent of the aggregate of the excess revenues shall be deposited to the Fund during a financial year;
- ii.* all revenues to be deposited into the Fund shall be a charge on the Consolidated Fund.

The deposits are to be made no later than the end of the month following the quarter in respect of which the deposit was calculated.

Capital contributions received under the requirements of the Act are treated as additions to Equity.

***p) Withdrawals***

In accordance with Section 15 of the Act, subsection (1), subject to subsections (2) and (3), where the petroleum revenues collected in any financial year fall below the estimated petroleum revenues for that financial year by at least ten per cent, withdrawals may be made from the Fund as follows, whichever is the lesser amount:

- i)* Either sixty per cent of the amount of the shortfall of petroleum revenues for that year; or
- ii)* Twenty-five per cent of the balance outstanding to the credit of the Fund at the beginning of that year

Subsection (2) states that the amount withdrawn from the Fund in accordance with subsection (1) shall be deposited into the Consolidated Fund within forty-eight hours of such withdrawal.

Subsection (3) states that notwithstanding subsection (1), no withdrawal may be made from the Fund in any financial year, where the balance standing to the credit of the Fund would fall below one billion dollars in the currency of the United States of America, if such withdrawal were to be made.

Withdrawals are also made in accordance with the amendment to the Act of 2020, under Section 15A. Subsection (1) of the amendment states that notwithstanding section 15 and any other written law and subject to subsection (2), withdrawals may be made from the Fund where:

**Notes to the Financial Statements  
for the year ended 30 September 2025 (continued)  
(Expressed in United States Dollars)**

---

**2. Material Accounting Policies (continued)**

***p) Withdrawals (continued)***

- a. A disaster area is declared under the Disaster Measures Act;
- b. A dangerous infectious disease is declared under the Public Health Ordinance;  
or
- c. There is, or is likely to be, a precipitous decline in budgeted revenues which are based on the production or price of crude oil or natural gas.

Subsection (2) of the amendment states that withdrawals under subsection (1) may be made from the Fund not exceeding one and one half billion dollars at any time during the financial year.

Subsection (3) states that where a withdrawal has been made from the Fund under this section, the Minister shall cause a report to be laid in the House of Representatives, within sixty days of that withdrawal.

***q) Critical accounting estimates and judgements***

The Fund makes estimates and assumptions that affect the reported amounts of the assets and liabilities within the financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events.

The resulting accounting estimates will seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year are illustrated below:

- ***Fair value of financial instruments***

Where the fair value of financial assets and financial liabilities recorded on the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are derived from observable market data where possible, but where observable market data are not available, judgement is required to establish fair values. The judgements include considerations of liquidity and model inputs such as volatility for longer dated derivatives and discount rates, prepayment rates and default rate assumptions for asset backed securities.

**Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago**

**Notes to the Financial Statements  
for the year ended 30 September 2025 (continued)  
(Expressed in United States Dollars)**

---

**2. Material Accounting Policies (continued)**

***q) Critical accounting estimates and judgements (continued)***

- ***Business Model and SPPI***

Determining the appropriate business model and assessing the SPPI requirements for financial assets may require significant accounting judgement and have a significant impact on the financial statements.

## Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago

### Notes to the Financial Statements for the year ended 30 September 2025 (continued) (Expressed in United States Dollars)

#### 3. Financial Risk Management

The Fund is exposed to a variety of financial risks including credit risk, concentration risk, market risk and liquidity risk. The Fund is also exposed to operational risk, the risk of loss arising from inadequate or failed processes, people and systems or external events. The management of these risks is undertaken by the Bank along with highly qualified and experienced international asset managers; guided by the Operational and Investment Policy that is approved and reviewed by the Board of Governors.

The Fund's risk management policy seeks to preserve the long-term real value of the Fund whilst constraining the risk of not meeting its performance objectives over rolling 5-year periods. The Fund's policy allows for the use of derivative securities so as to mitigate certain risk exposures such as interest rate and currency risks as well as to enhance the value of the Fund. The use of derivative securities or contracts to create economic leverage is strictly prohibited. Purchasing securities on margin, except for futures or swaps, against which are held a risk equivalent amount of cash or liquid securities is also prohibited.

The Fund's policy allows for the management of risk relative to its Strategic Benchmark as well as from a sector or country or issuer level. These measures are explained below.

##### a) *The Strategic Benchmark*

The Fund's Investment Portfolio is invested in a manner to achieve the objective of preserving its real value measured over 5-year rolling periods. It is invested in accordance with the strategic asset allocation (SAA) approved by the Board of Governors. The SAA for the Fund is as follows:

| Asset Class                                   | Allocation |
|-----------------------------------------------|------------|
| U.S. Equities                                 | 17.5%      |
| Non-U.S. Equities                             | 17.5%      |
| U.S. Core Domestic Fixed Income Securities    | 40.0%      |
| U.S. Government Treasury 1-5 Years Securities | 25.0%      |

This SAA limits the allowable underperformance of the overall portfolio relative to the composite benchmark, to an annual budget of risk of 2.0% measured over rolling one-year periods.

## Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago

### Notes to the Financial Statements for the year ended 30 September 2025 (continued) (Expressed in United States Dollars)

#### 3. Financial Risk Management (continued)

##### a) *The Strategic Benchmark (continued)*

The benchmarks and the risk budget for each of the asset classes are as follows:

| Asset class                          | Performance Index                                                                                                                                                                                                                                                                       | Risk Budget |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| U.S. Equities                        | Russell 3000 ex-energy Index comprised of the 3,000 largest market capitalisation stocks in the United States and accounts for roughly 97% of the total market capitalisation of that country.                                                                                          | 0.70%       |
| Non U.S. Equities                    | MSCI EAFE ex-energy Index, which comprises the following countries: Australia, Austria, Belgium, Denmark, Finland, France, Germany, Greece, Hong Kong, Ireland, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland and the United Kingdom. | 4.50%       |
| U.S. Government Treasuries 1-5 Years | ICE Bank of America 1-5 Year U.S. Treasury Index                                                                                                                                                                                                                                        | 0.50%       |
| U.S. Core Domestic Fixed Income      | Bloomberg U.S. Aggregate Bond Index                                                                                                                                                                                                                                                     | 1.00%       |

The risk budget for each asset class is defined as the target annualised tracking error, measured ex-post, on a monthly rolling three-year basis, versus the Benchmark. The tracking error is defined as the annualised standard deviation of monthly excess returns relative to the Benchmark.

The overall performance of the SAA is evaluated against the composite benchmark return computed as the weighted returns of the benchmarks of the various asset classes with weights equal to the SAA weights.

##### c) *Portfolio Risk*

The Fund's activities expose it to a variety of financial risks: credit risk, concentration risk, market risk (currency risk, interest rate risk, credit spreads and price risk), and liquidity risk. The Fund is also exposed to operational risk.

##### *Credit Risk*

This is the risk that a party will default on its obligation to the Fund, causing it to incur a loss. The main concentration of credit risk arises from the Fund's investments in debt securities. The Fund is also exposed to counterparty risk on cash and cash equivalents as well as over-the-counter (OTC) derivatives.

Credit risk is mitigated by the establishment of ratings standards. These standards require U.S. Treasury, Government-Related and Securitised debt securities to have a minimum credit quality of AA-/ Aa3 from at least one of the Nationally Recognized Statistical Rating Organisations, Standard & Poor's or Moody's. Corporate debt should have a minimum credit quality of investment grade, at least Baa3 by Moody's or BBB- by Standard & Poor's. An investment grade corporate bond is considered to have a relatively low risk of default.

## Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago

### Notes to the Financial Statements for the year ended 30 September 2025 (continued) (Expressed in United States Dollars)

#### 3. Financial Risk Management (continued)

##### c) Portfolio Risk (continued)

##### *Credit Risk (continued)*

The table below summarises the credit quality of the Fund's debt securities as at September 30, 2025:

| Credit Rating | 2025   | 2024   |
|---------------|--------|--------|
| AAA           | 6.81%  | 10.71% |
| AA            | 69.71% | 67.00% |
| A             | 7.08%  | 6.89%  |
| BBB           | 16.28% | 15.26% |
| Not Rated*    | 0.12%  | 0.15%  |

\* Not Rated debt securities refer to securities that are issued or unconditionally guaranteed by the agency of a sovereign government. Credit rating for these investments is implicitly tied to the credit rating of the associated government.

The table below illustrates the investment grade credit quality categories, for the respective rating agencies:

| Rating Category    | Moody's                  | S&P                     |
|--------------------|--------------------------|-------------------------|
| High-Quality Grade | Aaa<br>Aa1<br>Aa2<br>Aa3 | AAA<br>AA+<br>AA<br>AA- |
| Upper-Medium Grade | A1<br>A2<br>A3           | A+<br>A<br>A-           |
| Lower-Medium Grade | Baa1<br>Baa2<br>Baa3     | BBB+<br>BBB<br>BBB-     |

Money-market counterparts should have a minimum credit rating of A1 from Standard & Poor's, or P1 from Moody's.

Notes to the Financial Statements  
for the year ended 30 September 2025 (continued)  
(Expressed in United States Dollars)

---

3. Financial Risk Management (continued)

*c) Portfolio Risk (continued)*

***Counterparty Risk***

In addition to ensuring counterparties meet minimum credit rating requirements, counterparty risk is also managed by limiting the exposure to a single institution. In the case of money-market counterparts, exposure to any one counterparty is limited to 3% of the Fund. While in the case of OTC currency forwards, net exposure is limited to 10% of the market value of the portfolio per currency for any given counterparty.

***Concentration Risk***

Concentration risk is the risk of loss attributable to holding investments in a single security or to a limited number of investment styles or asset classes. The Strategic Asset Allocation (SAA) reduces this risk by ensuring the Fund's assets are invested across various asset classes and styles. The Fund is invested in three broad asset classes:- Fixed Income including Government and Government- Related, Supranational, Corporate, and Securitised bonds; Equities including financial, consumer discretionary, healthcare, utilities, information technology, industrials, consumer staples and telecom services; and Cash Equivalents including U.S. Treasury and agency bills, Certificates of deposits and Money Market funds managed by the custodian with an AAAM rating and comprising only of the eligible asset classes defined in the Fund's investment policy.

Each asset class in which the Fund invests, reacts differently under the same market conditions, and usually when one asset class has strong returns another will have lower returns. Diversification across asset classes reduces the total risk of the Fund.

Concentration risk is also managed at the portfolio level, relative to the Strategic benchmark. Total net exposure to each of the sub-sectors of the Bloomberg U.S. Aggregate Bond Index (U.S. Treasury, Government-Related, Corporate and Securitised) cannot exceed plus or minus 20% versus the benchmark. Sector deviations relative to the Russell 3000 (Ex Energy) and MSCI EAFE (Ex Energy) indices are limited to plus or minus 5%. The Fund's policy also prescribes concentration limits for the various asset classes, including no more than 3% of the portfolio to any one corporate issuer and country allocation limited to plus or minus 10% of the MSCI EAFE (Ex Energy) index.

**3. Financial Risk Management (continued)**

***c) Portfolio Risk (continued)***

***Market Risk***

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises: currency risk, interest rate risk, credit spreads and price risk.

***i. Currency Risk***

This is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Fund invests in international bonds and equities denominated in currencies other than the United States Dollar, the base currency of the Fund. Currency risk is managed at the portfolio level. For the Fixed Income and U.S. Core Domestic Equity mandates, no more than 10% of the market value of the portfolio can be invested in securities denominated in currencies other than the United States Dollar. For the Non US Core International Equity mandate, currency hedging is allowed for up to 15% of the market value of the portfolio.

A 1% change in the US dollar relative to other currencies (see below) in which the Fund trades would have changed the net assets of the Fund as at 30 September 2025 and 30 September 2024 as follows:

|                      | Sep-25            | Sep-24            |
|----------------------|-------------------|-------------------|
|                      | \$                | \$                |
| Change in Net Assets | <u>32,139,903</u> | <u>26,663,111</u> |

The following table illustrates the currency concentration exposure of financial assets and liabilities held by the Fund as at 30 September 2025 and 2024:

**3. Financial Risk Management (continued)**

**c) Portfolio Risk (continued)**

**Market Risk (continued)**

**ii. Interest Rate Risk**

This is the risk that the value of a financial instrument will fluctuate, due to changes in market interest rates.

The Fund invests in fixed and floating rate debt securities that expose it to fair value and cash flow interest rate risk. Interest Rate Risk is managed at the portfolio level whereby the average weighted effective duration of the U.S. Short Duration Fixed Income mandate must not vary from that of the Benchmark by more than plus or minus six (6) months. The weighted average effective duration of the U.S. Core Fixed Income mandate may range between one (1) year longer or shorter than the weighted average duration of the Benchmark.

|                                | 2025      |       | 2024      |       |
|--------------------------------|-----------|-------|-----------|-------|
|                                | Portfolio | Index | Portfolio | Index |
| US Short Duration Fixed Income | 2.60      | 2.54  | 2.71      | 2.59  |
| US Core Fixed Income           | 5.84      | 6.04  | 6.06      | 6.20  |

**iii. Price Risk**

This is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes other than those arising from interest rate risk or currency risk, whether those changes are caused by factors specific to the individual financial instruments or issuer, or factors affecting all similar financial instruments traded in the market.

Price risk is managed through asset class diversification and selection of securities within the limits approved by the Board of Governors. The Fund's policy limits its holdings of any equity security to no more than 3% of that security's outstanding shares.

#### Liquidity Risk

This is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

One of the strategic objectives of the Fund is the maintenance of sufficient liquidity to cover its obligations at short notice and in accordance with the Act. In order to meet this stated objective, the Fund holds a combination of cash and short term assets such as U.S. Treasury and agencies bills and notes, certificates of deposits and money market funds managed by the custodian with an AAAM rating containing eligible asset classes in accordance with the investment policy.

#### Operational Risk

This is the risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events. It is managed through organisational policies, procedures and operational frameworks utilised by the Bank for management of the Fund. The internal and external processes for the Fund are similar to those which exist for management of the Official Reserves. These processes are tested and audited annually. The Bank strives to continually comply with international best practice.

#### (b) Fair value hierarchy

Various methods are used in estimating the fair value of a financial instrument. The Fund classifies fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making measurements.

The fair value of the Fund's investment securities is analysed by the fair value hierarchy below:

|                                                 | Sep-25               |                      |          |                      |
|-------------------------------------------------|----------------------|----------------------|----------|----------------------|
|                                                 | Level 1              | Level 2              | Level 3  | Total                |
|                                                 | \$                   | \$                   | \$       | \$                   |
| <b>Financial Assets</b>                         |                      |                      |          |                      |

### Valuation techniques

#### Investment Securities included in Level 1

Exchange listed price or a broker quote in an active market.

#### Investment Securities included in Level 2

Where a security has ceased trading the last trade price or a broker quote in a non-active market is used. Additionally, securities closely related (e.g. when issued, fungible shares) where the security held is not trading but related security is traded.

#### Investment Securities included in Level 3

Security in which no indications or comparables are available and the company's financials/information or other market indicators are used to calculate valuation.

#### (c) Transfers between Fair Value Hierarchy Levels

As at September 30, 2025, there were no transfers between fair value hierarchy levels.

## **Heritage and Stabilisation Fund of the Republic of Trinidad and Tobago**

### **Notes to the Financial Statements for the year ended 30 September 2025 (continued) (Expressed in United States Dollars)**

---

#### **12. Asset management agreements**

Under Section 10(1) of the Act, the Bank as Manager of the Fund is responsible for the management of the assets and other resources of the Fund.

The Act specifies that within the instrument of delegation, the Bank be paid a management fee which is a percentage of the Fund's market value agreed between the Board and the Bank. The management fee is exclusive of any custodian fees, broker fees, current account fees or any other third party fees that may accrue incidental to the management of the Fund.

#### **13. Board and other expenses**

Under Section 4(6) of the Act, the members of the Board shall be paid such remuneration and allowances as may be determined by the Minister of Finance. These expenses, along with other operating expenses of the Fund's Secretariat are met from the Consolidated Fund, and thus do not form a part of the Financial Statements of the Fund.

#### **14. Capital contributions**

Capital contributions are calculated based on criteria set out under Sections 13(1) and 14 of the Act, (see Note 2 (o)). There were no capital contributions during the year ended September 30, 2025.

#### **15. Withdrawals**

Withdrawals from the Fund are made in accordance with the criteria set out under Section 15 and 15A of the Act, (see note 2 (p)). For the financial year ended September 30, 2025, the amount of USD410,775,703 was withdrawn from the Fund under Section 15.
